SERVICE CLASSIFICATION No. 5

Applicable to the Use of Service for:

Firm transportation service to customers who meet the eligibility requirements for service under S.C. 1 or S.C. 2 to P.S.C. No. 6 – Gas when Corning Natural Gas Corporation (hereinafter called "Company") has facilities available and adequate for the load. Service under this Service Classification must be requested by a retail customer who has contracted to purchase gas from an alternate source. Such customers shall have demonstrated to the Company's satisfaction the ability to utilize an alternate source of fuel.

Character of Service:

Firm transportation of end-use customer owned pipeline quality natural gas delivered to the dual fuel customer's existing service point. The Company will control the dispatch of such gas and dispatch will be provided as requested by the Customer, except the quantity of gas delivered will be conditioned upon the availability of the Company's capacity to serve such customers.

Rates:

A rate per 1,000 cubic feet (Mcf) shall be established at the sole discretion of the Company, each month and shall be applicable to all gas transported under this Service Classification.

The rates shall be filed with the Commission and available for public inspection at the Company office at least three (3) working days prior to the first day of the billing period for which the rates shall apply.

The rate per Mcf shall not be less than $0.1000 nor greater than the applicable S.C. 3 or S.C. 4 transportation rate for each specific customer. The rate so determined shall be increased in accordance with General Information Rule 13 for service supplied within the municipality where the customer is taking service. Rates are also subject to increase in accordance with Paragraph 11A, Leaf 9.

The customer's meter shall be read each time a rate adjustment is made so as to bill the consumption at the appropriate rate.

Issued by Michael German, President and C.E.O., Corning, N.Y. 14830
