SECTION 10 – AMERICAN LONG LINES (Cont'd)

(N)

10.8 Local Usage (Cont'd)

10.8.2 Timing of Calls

- A. Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.
- B. For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- C. For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- D. Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- E. Calls originating in one time period as defined in Section 10.4.1 and terminating in another will be billed the rates in effect at the beginning of each minute.
