

NY PSC Tariff No. 6 - TELEPHONE
PAETEC Communications, Inc.
Initial Effective Date: 01/02/2006

Section: 10 Leaf: 14
Revision: 0

SECTION 10 – AMERICAN LONG LINES (Cont'd)

(N)

10.5 Supplemental Services and Charges (Cont'd)

10.5.2 CLASS Services

A. General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all CLASS services. Transmission levels may not be sufficient in all cases.

B. Description of Features

1 Caller ID

The Caller ID feature allows a Customer to see a caller's name and number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the name, number, date and time of each incoming call - including calls that aren't answered by the Customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the Customer to provide the necessary CPE.

2. Caller ID with Name

Caller ID with name provides the caller's name in addition to the telephone number from which an incoming call originates, including names and number associated with non-published and non-listed service. The name and calling number are displayed on customer-provided premises equipment attached to the Customer's telephone line. Customers subscriber to Caller ID with Name will also be provided automatically with the Anonymous Call Rejection feature.
