Revision: 0

SECTION 10 – AMERICAN LONG LINES (Cont'd)

(N)

10.5 Supplemental Services and Charges (Cont'd)

10.5.2 CLASS Services

B. Description of Features (Cont'd)

8. Anonymous Call Rejection

Allows a Customer to redirect incoming calls for which calling name and number display has been suppressed through the use of Per-Call Blocking or All-Call Blocking, to an announcement indicating that the Customer is not presently accepting such calls. The Customer may activate and deactivate the feature by dialing a code.

9. Call Waiting ID

This feature is designed for use by Call Waiting Subscribers and augments Call Waiting. It allows a Customer already engaged in a telephone call to receive Caller ID information (number only) for a new incoming call. Callers subscribing to this feature will also be provided with the Anonymous Call Rejection feature.

10. Call Waiting ID with Name

This feature provides the same functionality as described above with the addition of display of the caller's name associated with the incoming call.

11. Call Manager

This service allows a Customer who is engaged in a telephone call to receive Caller ID (number only) information for a new incoming call, and to handle the new call by either (a) forwarding to Call Answering; (b) including in conferencing; (c) by routing to a message announcement or (d) Drop/First/Drop Last Caller option. The Customer must subscribe separately to Call Waiting. Call Answering is optional. The Customer is required to purchase premises equipment that is capable of displaying Call waiting ID information, in addition to facilitating disposition options.
