

NY PSC Tariff No. 6 - TELEPHONE
PAETEC Communications, Inc.
Initial Effective Date: 01/02/2006

Section: 10 Leaf: 16
Revision: 0

SECTION 10 – AMERICAN LONG LINES (Cont'd)

(N)

10.5 Supplemental Services and Charges (Cont'd)

10.5.2 CLASS Services

B. Description of Features (Cont'd)

5. Per-Call Blocking

Per-Call Blocking prevents display of the calling number to a Caller ID, Call Waiting ID or Call Manager Subscriber, and of the calling name and number to a Caller ID with Name, Call Waiting ID with Name or Call manager with Name Subscriber for a single call. The Customer must dial a special code before dialing the called number.

6. All-Call Blocking

All-Call Blocking prevents display of the calling number to a Caller ID, Call Waiting ID or Call Manager Subscriber, and of the calling name and number to a Caller ID with Name, Call Waiting ID with Name, or Call Manager with Name Subscriber on all calls made from a particular line, unless the feature is disabled. Nonrecurring charges may apply.

7. Call Trace

Call Trace allows Customers to key in a code that alerts the network to trace the last call received. The traced telephone number is automatically sent to the company for storage for a limited amount of time and is retrievable by legally constituted authorities upon proper request by them. By contacting the company the Customer can use this application to combat nuisance calls.
