For example: A Customer purchases a thirty-six (36) month term contract for an Access Advantage Plus Loop and requests the Easy Pay Option for the Non-Recurring Charges (\$200, current rate). The Customer would pay the Easy Pay Option amount of \$6.32 ($\$200 \times .0316$ annuity factor) per month for thirty-six (36) months as opposed to a one time \$200 charge. The Easy Pay Option amount is in addition to the monthly Recurring Charge for the Loop. The example does not include connecting Services that the Customer would purchase. The Customer may include the Non-Recurring Charges for the connecting Services in the Easy Pay Option.

Upon 30 days prior notification to the Company, the customer may terminate the Deferred Payment Arrangement by paying the remaining principal in full. No credit will be made for interest already accrued. If service is discontinued, the customer will be charged the remaining principal balance of the nonrecurring charges plus applicable termination liability charges.
