(E) Moves and Changes

There are two types of modifications available for DTS circuits:

1. A move of the point of termination of an existing DTS circuits(s) to a new location within the customer's same premises.
2. Any subsequent change or rearrangement of services requested by the customer on an existing DTS circuit(s).

(F) Termination Liability

In the event that the Digital Transport Service (DTS) Interface or PORT is disconnected after the service is established, but prior to expiration of the service term, the customer will be required to pay a termination charge which is calculated as such

- Number of net terminated Service Interfaces or Ports, multiplied by
- Total monthly Digital Transport Service (DTS) rate for the net terminated Service Interface or Ports, relevant to that customer's service term, multiplied by
- The number of months remaining in the customer's Digital Transport Service (DTS) contract, multiplied by
- Fifty percent (50%)
