G) Cancellation Charge

When the customer cancels a Digital Transport Service (DTS) order, a cancellation charge will apply as specified in section 2.9 of this tariff.

1. The company cancellation charges do not apply:
 - a. When a customer cancels an order for the discontinuance of an existing Digital Transport Service (DTS) service.
 - b. If the company misses a service installation date by more than 30 days due to a Force Majeure condition, the customer may cancel the affected portion of the Digital Transport Service (DTS) order without incurring Cancellation Charges.

(H) Local Usage Option

1. Customers may select the Flat Rated Usage option in lieu of paying Measured/Message Rate usage charges, if available. In areas where there is no Measured/Message Rate Usage offered by the company, Flat Rate Usage will be provided.
2. Customers may convert existing Digital Transport Service(s) from Measured/Message Rate Usage to the Flat Rated Usage option, however, the current Digital Transport Service TPP contract will be terminated. Termination charges are not applicable when the customer converts to a new TPP term having an expiration date which is beyond that of the original. Otherwise, termination charges will apply.
3. Customers may convert existing Digital Transport Service from the Flat Rate Usage option to Measured Rate Usage, if available. Customers doing so may elect to retain their original TPP, or sign a new TPP contract. Customers retaining their original TPP will pay termination charges on the Flat Rated Usage option only. Termination charges are not applicable when the customer converts to a new TPP term having an expiration date which is beyond that of the original. Otherwise, termination charges will apply.
4. The entire Digital Transport Service for the same customer of record at the same premises must be uniformly on the same usage rate basis. Combinations of usage rate methods are not permitted.
