#### 9.4.2 Point of Termination Move

Any move of the point of termination within the same customer premises involving an existing Private Line circuit being moved to a new location within the same customer premises, may be provided, at the customer's request, on a time sensitive charge basis. No change in billing period is required.

#### 9.4.3 Customer Premises Move

A move of existing service may be provided at the customer's request. The customer will be billed 5% of the normal Private Line termination charge. Following the payment of applicable termination charges, customer will be responsible for any non-recurring charges associated with the reconnection of the service (e.g., Private Line CT Installation Charge).

In the event a change involves a physical move of the point of termination at the customer's premises or a move of the customer's premises, a "Move" charge will apply. The customer is liable for any installation or nonrecurring charges applicable with the installation of a new service. These charges are also applicable even if the customer signed a term contract and received a full or partial waiver of installation charges with the original installation of service. If the move of the customer's premises is as a result of an SFM, stated earlier, and the facility to the new premises is existing, then termination charges will not apply. No non-recurring charges will apply for that end of the channel or circuit except the applicable SFM charge.
