2.18 Service Provider Options

2.18.1 No Primary Interexchange Carrier (PIC) Option

Customers have the option of not selecting a toll provider as primary carrier for intraLATA and/or interLATA toll traffic, thus requiring the customer to use an access code to obtain toll providers' services (i.e., 1010-XXX).

2.18.2 Two PIC Option

Customers will be able to select one toll provider for intraLATA toll calls and, if so desired, the same or another toll provider for interLATA toll calls.

2.18.3 Preferred Carrier Freeze (PCF)

The Company offers a free service called Preferred Carrier Freeze. This service is available to all Customers. PCF allows Customers to designate their local long distance (intraLATA) provider, long distance (interLATA) provider, and a local exchange service provider as permanent choices which may not be changed absent further authorization from the Customer. The Company will send a letter to each Customer upon initiation or transfer of service, which informs the Customer of the option to freeze his/her intraLATA, interLATA and local service provider choice(s). At the time a Customer contacts the Company to establish a freeze, a representative will advise him/her on how to facilitate a change of provider(s) on a frozen account.

2.18.4 Carrier Change Charge

After the initial 30-day period, or at any time after an initial carrier selection has been made, any carrier selection or change is subject to a Non-Recurring Charge of \$5.00 per change, per line.
