Availability and Applicability of Service (continued):

Service under this Service Classification will commence on the first day of the month provided that the Company is in receipt of all applications by the fifth day of each month.

Character of Service:

Transportation service under this Service Classification shall be on a firm basis. In providing service under this Service Classification, the Company will transport and control the dispatch of the natural gas from the City Gate to the customer's metered facilities.

Service under this Service Classification shall consist of transportation of natural gas of a Btu content of not less than 950 Btu per cubic foot (dry basis) on a monthly average, supplied at pressures within the limits prescribed by the Public Service Commission.

Two firm transportation service options are available to the Customers:

- 1) Non-Utility Capacity Option with Normal Deliveries, and
- 2) Release of the Company's Upstream Transportation with Design Deliveries.

Non-Utility Capacity Option:

A Seller that delivers or causes to be delivered at the City Gate the applicable Customer's Daily Delivery Quantity (DDQ) or, in the case of more than one Customer, the Customers' Aggregate Daily Delivery Quantity (ADDQ) for each day of the month based on the Customers' Projected Use Profile. A Seller must acquire its own upstream transportation.
