

NY PSC Tariff No. 6 - TELEPHONE
PAETEC Communications, Inc.
Initial Effective Date: 10/9/2003

Section: 5 Leaf: 19
Revision: 0

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.8 LOCAL OPERATOR SERVICE (Cont'd)

5.8.1 Description of Services (Cont'd)

J. Call ID (Cont'd)

Call ID service also provides a residential customer with the ability to reject calls from customers who have blocked the display of their telephone number on outgoing calls. This feature is called Anonymous Call Rejection (ACR) and can be activated and deactivated by dialing a specific code. There is no additional charge for ACR service.

K. Call ID Per-Call Blocking

Per-Call Blocking is automatically available to all customers served by the Company. This blocking option allows the calling party to block the passage of their telephone number and name on outgoing calls. To activate Per-Call Blocking a special code is dialed prior to placing each call. When this blocking feature is activated by the calling party, and they place a call to a Call ID subscriber, the subscriber's display unit will indicate that the incoming call has been blocked. There is no charge to activate Per-Call Blocking and the service is provided on an unlimited basis. Call ID Per-Call Blocking does not prevent the delivery of telephone number to 911 emergency service providers.

L. Call ID Per-Line Blocking

The calling party may prevent the display of their telephone number and name on a permanent basis by subscribing to Per-Line Blocking. This blocking option automatically prevents the display of the calling number and name for all calls placed from that line to a Call ID subscriber, unless the feature is deactivated. This service is limited to residential customers. If a subscriber of Per-Line Blocking chooses to deactivate blocking, the calling telephone number and name would be sent for that call only.
