Section 6 - NETWORK SWITCHED SERVICES (Cont'd)

6.4 SERVICE DESCRIPTIONS (Cont'd)

6.4.5 Term Liability/Termination Charges

Several of the services offered pursuant to this tariff are available at reduced prices if the Customer agrees at the time the order is placed to continued service for a specified period of time ("term"). If the Customer terminates service prior to the end of the term, in part or in whole, then termination charges may apply. If a customer disconnects service prior to the fulfillment of the term plan contracted, then a termination liability will be due to Company from Customer. The termination liability charge will be the difference between the monthly rate for the highest term period which could have been satisfied prior to service discontinuance and the monthly rate for the selected commitment period multiplied by the actual number of months the plan has been in effect. The monthly rates used for this calculation will be those in effect at the time the service is disconnected.

6.4.6 PRI T-1 Service

PRI T-1 (Primary Rate Interface) T-1 Service provides the customer with a direct digital connection via switched access to one or more private or public services. PRI T-1 Service is an enhanced T-1 service that allows the customer Integrated Services Digital network (ISDN) bandwidth that facilitates end-to-end digital connectivity to support a variety of services. PRI T-1 Service is 23 B channels each being a full 64,000 bps. One channel is a D channel to allow for signaling information to be passed. The service is utilized to connect ISDN compatible equipment at the customer premises to a suitably equipped Company node.
