Section 6 - NETWORK SWITCHED SERVICES (Cont'd)

6.4 SERVICE DESCRIPTIONS (Cont'd)

6.4.2 Public Access Line Service

Public Access Line Service provides a single, analog, voice-grade telephonic communications channel that can be used to connect a pay telephone to the Company's switching equipment. Local measured usage charges apply to all local calls originating on this line. Service to customers may require the use of a link (and, or) number portability arrangements provided by the Incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.
