TARIFF FORMAT

- A. Leaf Numbering - Leaf numbers appear in the upper right corner of the page. Leaves are numbered sequentially. However, new leaves are occasionally added to the tariff. When a new leaf is added between leaves already in effect, a decimal is added. For example, a new leaf added between leaves 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current leaf version on file with the Commission. For example, the 4th revised Leaf 14 cancels the 3rd revised Leaf 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current Leaf number on file with the Commission is not always the tariff page in effect.
