

PSC NY Tariff No. 5 – Telephone
PAETEC Communications, Inc.
Initial Effective Date: 10/10/2003

Section: 2 Leaf: 10
Revision: 0

SECTION 2. RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Subscriber (Cont'd)

2.4.4 The Subscriber is responsible for arranging access to its premises at times mutually agreeable to Carrier and the Subscriber when required by Carrier personnel to install, repair, maintain, program, inspect or remove equipment with the provision of Carrier's services.

2.4.5 The Subscriber shall ensure that the equipment and/or system is properly interfaced with Carrier facilities or services, that the signals emitted into Carrier's network are of the proper mode, bandwidth, power, and signal level for the intended use of the Subscriber and in compliance with the criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel, or degrade service to other Subscribers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Carrier will permit such equipment to be connected with its channels without use of protective interface devices.

If the Subscriber fails to maintain the equipment and/or the system properly, with resulting imminent harm to Carrier equipment, personnel, or the quality of service to other Subscribers, Carrier may, upon written notice, require the use of protective equipment at the Subscriber's expense. If this fails to produce satisfactory quality and safety, Carrier may, upon written notice, terminate the Subscriber's service.

Richard E. Ottalagana, Executive Vice President, Fairport, New York
