Revised Leaf No. 0

GENERAL INFORMATION

13. Service: (Cont'd.)

A. Gas Curtailment Plan (Cont'd.)

(a) Order of Curtailment: (Cont'd.)

- (4) Industrial and commercial space heating boiler fuel requirements, air conditioning, electric generation, and other non-process purposes, where the base annual requirements for an individual piece of gas equipment (boiler or \ other appliance) are 12,000 Mcf or larger.
- (5) Process requirements for which there are technically feasible alternate fuels and industrial and commercial requirements for space heating (other than boiler fuel use) where the base annual requirements for an individual piece of equipment are 12,000 Mcf or larger.
- (6) Industrial and commercial space heating boiler fuel requirements, air conditioning, electrical generation, and other non-process purposes where the total base annual requirements are 12,000 Mcf or larger.
- (7) Process requirements for which there are technically feasible alternative fuels and industrial and commercial requirements for space heating (other than boiler fuel use) where the total base annual requirements are 12,000 Mcf or larger.
- (8) Industrial and commercial space heating boiler fuel requirements, air conditioning, electrical generation and other non-process purposes where the total base annual requirements are between 1,200 Mcf and 11,999 Mcf inclusive.
- (9) Process requirements for which there are technically feasible alternate fuels and industrial and commercial requirements for space heating (other than boiler fuel use) where the total base annual requirements are between 1,200 Mcf and 11,999 Mcf inclusive.
- (10) Process and feedstock requirements for which there are no technically feasible alternate fuel where the total base annual requirements are 1,200 Mcf or more.
- (11) Plant protection requirements for customers curtailed in items 4 through 10 above.
- (12) Industrial and commercial requirements where combined total base annual requirements are less than 1,200 Mcf.
- (13) Residential requirements.
