Issued under the authority of the PSC in Case 03-E-0633, order effective May 23, 2003

Leaf No. 86
Revision: 1
Superseding Revision: 0

GENERAL INFORMATION

4. METERING AND BILLING (Cont'd)

L.3 INCREMENTAL MANUFACTURING LOAD RIDER (Cont'd)

BILLING AND PROGRAM BENEFITS:

For customers who increase their load by constructing a new facility or by adding facilities through the redevelopment of an existing site which has been vacant for at least six months, the Company will calculate bills for service supplied under the Incremental Manufacturing Load Rider in accordance with the applicable Special Provision under the Service Classification for which the facility qualifies, as specified in the "Applicable to Use of Service For" section of that Service Classification. All load at such a site will be billed for service under this rider.

For customers who increase their load by expanding an existing facility or adding facilities or equipment to an existing site, the Company will calculate bills for service supplied under the Incremental Manufacturing Load Rider in accordance with the applicable Special Provision under the Service Classification under which the existing site or facility is currently being served. Only the additional load will be eligible to be billed for service under this rider. The Company shall determine the amount of load eligible to be billed for service under this rider by either separately metering the customer's additional load, or at its option, by metering the customer's entire load and subtracting out a base amount of monthly consumption which has been determined by the Company using an annual historical period.

TERM OF SERVICE:

Customers may receive service under this rider until June 30, 2002. Customers may sign up for service under this rider at any time prior to June 30, 2002, however service under this rider will cease on that date, regardless of when the customer began taking service.

EXTENSION AND MAINTENANCE OF COMPANY FACILITIES TO SERVE CUSTOMER

If the Company is required to extend or upgrade any of its facilities in order to be able to supply the additional load being served under this rider, all provisions of Rule 3 of this tariff shall apply, and the customer shall be responsible for any charges specific in Rule 3.

INCREASE IN RATES AND CHARGES:

The rates and charges under this rider, including any adjustments, are increased by the applicable effective aggregate percentage shown in Rule 4.J for service supplied within the municipality where the customer is taking service.
