

SECTION 1 - GENERAL REGULATIONS *continued*

1.7    USE OF SERVICE

Service may not be used for any unlawful purpose or for any purpose for which any payment or other compensation is received by the customer, except when the customer is a duly authorized regulated common carrier. This provision does not prohibit any arrangement between the customer and another authorized user or joint user to share the cost of the service as long as the arrangement generates no profit for any participant in the arrangement.

1.8    INTERCONNECTION

1.8.1    Service furnished by Company may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitation established by Company. Service furnished by Company is not part of a joint undertaking with such other carriers. Any special interface equipment or facilities necessary to achieve compatibility between the facilities of Company and other participating carriers shall be provided at the customer's expense.

1.8.2    Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of the other Company's tariffs. The customer is responsible for taking all necessary legal steps for interconnecting his or her customer-provided terminal equipment of communications systems with Company's facilities. Customers shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnections.
