SECTION 12 - INTRALATA TOLL MESSAGE TELECOMMUNICATIONS SERVICE

E. WIDE AREA TELEPHONE SERVICE (Continued)

2. Definition (Continued)

- f. A WATS access line for use by Interexchange Carriers is a transmission path from a Telephone Company Central Office to the premises of the end user designated by the Interexchange Carrier for the purpose of originating outward WATS calls or receiving incoming 800 Service or 800 NXX Service calls. Each such line will be arranged, at the Interexchange Carrier's option, for either outward WATS or incoming 800 Service or 800 NXX Service, but not both, subject to the provisions of E.4. following.
- g. The WATS access line for use by Interexchange Carriers is billed by the Telephone Company to the Interexchange Carrier at the monthly rates and connection charges set forth in this Tariff. For Service Arrangements A, B and C, intraLATA usage which originated (outward service) or terminates (inward service) in this access line is billed by the Telephone Company to the end user at the rates set forth in this Tariff or at charges for local and toll calls specified in the Company's Tariffs.

For Service Arrangement D, all usage charges are billed by the Interexchange Carrier which provides the service, at the Interexchange Carrier's WATS-like rates.

3. Limitation of Service

- a. WATS does not include person-to-person, collect, conference, or other calls requiring operator handling except as provided in 2.c. preceding.
- b. WATS is not represented as adapted for connection to other services of the Telephone Company. The service contemplates the provision of satisfactory transmission only between the access line and the calling or called station.
- c. 800 Service or 800 NXX Service may be furnished only when and for so long as the customer subscribes to a sufficient number of access lines to handle adequately the volume of telephone calls received, without interfering with any of the services offered by the Telephone Company. In the event that the use of the service causes such interference, the Telephone Company shall have the right to discontinue service without prior notification to the subscriber.

4. Minimum Contract Period

The minimum contract period for Outward WATS and 800 Service provided by the Telephone Company is one month. Contracts apply separately for Outward WATS or 800 Service. Contracts are subject to the provisions of paragraph 7 following.
