SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

2. Description (Cont'd)

j. Selective Call Acceptance

This feature provides the customer the ability to screen incoming calls against a list of subscriber-specified directory numbers and then accepts any calls only from those specified directory numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be accepted. When a call is placed to the customer's number from a number not on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is Telephone Number identified.
