SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

2. Description (Cont'd)

m. Caller ID – Deluxe

This feature enables the terminating customer to view on a display unit the Directory Name and Number of the Calling Party.

When Caller ID Deluxe is activated on a customer's line, the Directory Name and Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

If the customer's line is busy, and another incoming call attempt is made, the name and telephone number of that calling party will not be disclosed even if the called number has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

When Caller ID Deluxe is activated on a customer's line, the Directory Name and Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle. Callers placing calls to customers subscribing to Call ID-Deluxe have the ability to prevent their name and telephone numbers from being disclosed to the called party on a per call basis by utilizing Per Call Restrict (See J1.2.E following). The prevention of the disclosure of their name and telephone numbers is accomplished by dialing a special code before dialing the name and telephone number. The special code must be dialed prior to every call made in which the calling party does not want the name and telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Call ID-Deluxe may also prevent the disclosure of their name and telephone numbers on a per line basis by subscribing to All Call Restrict (See J1.2.F. following). This service will prevent the display of the calling party's name and number on all calls originating on that line. A privacy indication will appear on the display unit instead of the calling party's telephone number on all calls.

Caller ID Deluxe should be used for incoming call management purposes only and should not be relied upon for any other purposes such as determining the originating location of a call or determining the definitive identity of a caller. ALLTEL New York, Inc. shall not be responsible for and makes no representation with respect to the content of information received or transmitted for any purpose other than call management.

Any customer subscribing to Call ID-Deluxe will be responsible for the provision of a display device, which will be located on the customer's premise. The installation, repair and technical capability of that equipment to perform in conjunction with the feature specified will be the responsibility of the customer. The Company assumes no liability or responsibility with respect to the compatibility of customer's equipment, its performance, or its ability to provide the service.
