SECTION 2 - GENERAL RULES AND REGULATIONS

A. APPLICATION OF RATES AND CHARGES (Cont'd.)

3. Power Supply

The subscriber is responsible for providing suitable electric power at a suitable outlet when and where required. In the event of a power failure, no allowance is made for interruptions of the service.

4. Special Charges

In any case where the furnishing of facilities and service involves special installation work or unreasonable construction, maintenance or replacement costs or expenses on the part of the Telephone Company, the subscriber may be required to pay an additional installation or construction charge, monthly charge, or both, based on the additional cost and expenses involved. The subscriber may also be required to pay additional charges for work performed outside of regular working hours at the request of the subscriber.

Where the Telephone Company furnishes a facility or service for which a rate or charge is not specified in the Telephone Company's Tariffs, charges based on cost apply. The regulations under which those facilities or services are provided are contained in the "Limited Service Offerings" paragraph of Section 6 of this tariff.
