

PSC No: 17 - Gas
Rochester Gas and Electric Corporation
Initial Effective Date: June 1, 2003

Leaf No. 78
Revision: 0
Superseding Revision:

GENERAL INFORMATION

PART II - RULES AND REGULATIONS

9. EXTENSION AND MAINTENANCE OF DISTRIBUTION PROVIDER FACILITIES (Cont'd)

A. PROVISION OF GAS SERVICE (Cont'd)

4) Distribution Customer Charges for Additional Facilities (cont'd)

- b) If the Distribution Provider must install service lines, service connections or appurtenant facilities in addition to those required to be provided without charge under Rule 9.A.3, the Distribution Customer shall pay the Distribution Provider's costs and expenses for said facilities.

The route of the service line and the location of the meter shall be satisfactory to the Distribution Provider. Should the Distribution Customer request a route for the service line or a location for the meter different from those selected by the Distribution Provider, such changes will be made, if found feasible by the Distribution Provider's engineers provided the Distribution Customer pays the Distribution Provider's costs and expenses to make such changes.

Any relocation of a service line, or a portion thereof, requested by the Distribution Customer or any relocation required to remedy a condition constituting a violation of a law or ordinance which has been caused by or is the responsibility of the Distribution Customer or its Retail Customer, shall be performed by the Distribution Provider at the expense of the Distribution Customer
