GENERAL INFORMATION

PART II - RULES AND REGULATIONS

12. FORMS (Cont'd)

MINIMUM INSULATION STANDARDS CERTIFICATE Existing Residential Units Converting to Gas Heat - Owner's Certification

Certificate No. _____

Rochester Gas and Electric Corporation

CERTIFICATE OF COMPLIANCE

Minimum Standard Insulation for
Existing Residential Units Converting to Gas Heat

I _____ am aware that the Minimum Insulation Standards for Dwellings
(Owner)
Converting to Gas Space Heat require my house to have storm doors, storm windows, and at least R-19 (usually six
inches) roof insulation. I certify that my building at _____
(Location)

meets those requirements, or that I have obtained a waiver, and I understand that should my building be found not in
compliance, a 15 percent surcharge on my utility bill may be imposed or electric or gas service may be discontinued.

The undersigned attests that all statements and representations contained in this certificate are true and
accurate.
