GENERAL INFORMATION

PART II - RULES AND REGULATIONS

13. FORMS (Cont'd)

UNDERGROUND RESIDENTIAL DISTRIBUTION SYSTEM APPLICATION FORM

THE UNDERSIGNED, (hereinafter called "Distribution Customer") hereby applies to ROCHESTER GAS AND ELECTRIC CORPORATION (hereinafter called "RG&E") to have RG&E furnish an underground electric distribution system for permanent residential service in:

situated in the _____ of _____, County of _____

Upon acceptance of this application, RG&E AGREES to:

1. Install, own, operate and maintain underground electric distribution lines of sufficient capacity to provide safe and adequate permanent electric service.
2. Install such appurtenant devices, equipment and materials as shall in the judgement of RG&E be safe, adequate and appropriate.
3. Notify the telephone and cable television companies of the execution and receipt of this application for an underground distribution system.

THE DISTRIBUTION CUSTOMER AGREES that before RG&E shall be obligated to make such installations, Distribution Customer shall:

1. Grant to RG&E permanent easements or rights of way in accordance with the provisions of Rule 6 of RG&E's "Schedule for Electric Distribution Service".
2. Clear the easement areas of all brush, tree stumps and other obstructions to construction; grade within six inches (6") of final grade in a manner acceptable to RG&E; maintain during development of the subdivision such clearance and grading; and place and maintain stakes indicating grade, property lines and the location of all underground facilities.
3. Install all culverts and sewer, water and drainage facilities including any lateral lines thereof which may be located within or extend across RG&E's easement. Said easement shall be kept clear of water valves, sewer cleanouts or similar appurtenances.
4. Furnish a map approved by the appropriate municipal planning board or other governmental body having jurisdiction or a survey map certified by a licensed professional engineer or land surveyor and certified by Distribution Customer as final, showing the location of each lot, roadway, sidewalk, curb/gutter/culvert, and grade and setback lines. Distribution Customer shall also furnish map(s) showing the locations of all other existing and proposed underground facilities as soon as the location of such facilities is known.
5. Arrange with the telephone and cable television companies for any communication or cable television system.
6. If required by RG&E, make a deposit in accordance with the provisions of Rule 6.K.(2)(b) of RG&E's "Schedule for Electric Distribution Service".
7. Properly fill out the applicable customer enrollment form acceptable to the RG&E and otherwise comply with the provisions of RG&E's Electric Distribution Tariff.
8. Pay a lump sum charge to cover the Applicant's contribution to the cost of the Distribution system in excess of the required footage allowance in accordance with Rule 6.K.(2)(a) of RG&E's "Schedule for Electric Distribution Service".
