SBC Telecom, Inc.  
Initial Effective Date: May 18, 2003

Leaf: 127  
Revision: 0  
Superseding Revision:

---

SmartTrunk Interface – Provides a digital multichannel transmission path between the Customer's SmartTrunk serving central office and the customer's demarcation point. The Interface includes the SmartTrunk Port and the facility between the Customer's Premises and the SmartTrunk serving office.

SmartTrunk Port – A PRI connection that does not include the facility between the Customer's Premises and the SmartTrunk serving office (SmartTrunk Interface). The connection is made using a transport facility purchased separately. This facility must be a minimum DS1 level.
