For example: A Customer purchases a thirty-six (36) month term contract for SmartTrunk and requests to spread the Non-Recurring Charges (\$500 interface charge). The Customer would pay \$15.80 ( $\$500 * .0316$  annuity factor) per month for thirty-six (36) months as opposed to a one time \$500 charge. The amount is in addition to the monthly Recurring Charge for the Interface and Port.

- (D) End of Term Pricing - Upon expiration of the twelve (12) month, thirty-six (36) month or sixty (60) month initial or renewal Term Pricing Plan, the customer may:
- (1) Continue service at a thirty-six (36) or sixty (60) month renewal service term at the then current rate;  
or
  - (2) Disconnect service.
  - (3) If the Customer does not select either (1) or (2) above; Service will be continued on a month-to-month basis at the current one-year rate.
