**GENERAL INFORMATION**

**PART II - RULES AND REGULATIONS**

**4. OPERATIONAL ISSUES (Cont'd)**

C. BALANCING AND SETTLEMENT

Balancing of Distribution Customer deliveries with Distribution Customer loads will be provided by the NYISO. The NYISO will calculate settlement charges in accordance with the NYISO Transmission Tariffs and any applicable operating manuals, and bill the Distribution Customer directly. The Distribution Provider will calculate each Distribution Customer's load in each hour, including distribution system losses per Rule 4.B, and provide those loads to the NYISO.

D. INSTALLED CAPABILITY

The Distribution Customer shall be responsible for meeting the installed capability requirements of the NYISO as specified in the NYISO Transmission Tariffs.
