## GENERAL INFORMATION

### PART II - RULES AND REGULATIONS

#### 6. EXTENSION AND MAINTENANCE OF DISTRIBUTION PROVIDER FACILITIES

##### A. DISTRIBUTION LINE EXTENSIONS

###### (1) **Facilities within Highway or Private Right-of-Way**

Subject to the provisions of 16NYCRR Parts 98, 99 and 100, the Distribution Provider shall furnish, place, construct, operate, maintain and when necessary replace at its own cost and expense all electric distribution lines, service connections and other facilities within the territorial limits of any street, avenue, road or way that is for any highway purpose under the jurisdiction of the legislative body of any city, town, village, county or the State of New York, or on a private right-of-way when the Distribution Provider elects to use such a route in lieu of construction within such limits, used by the Distribution Provider for delivering electricity to a Distribution Customer or its Retail Customers. In the case where facilities are damaged, destroyed, caused to be replaced or reconstructed by an act or omission of any retail customer, person, corporation or other entity, the Distribution Provider may recover its costs and expenses for such replacement or reconstruction from the party responsible for such act or omission.

###### (2) **Distribution Provider Obligations**

When a written request for electric service is made to the Distribution Provider by a Distribution Customer whose property (or the property of its Retail Customer) abuts on or has access to any public right-of-way (other than a controlled access highway) in which the governmental authority having jurisdiction will permit the Distribution Provider to install and maintain facilities, the Distribution Provider shall:

- (a) Render the service requested in accordance with the provisions of 16 NYCRR Parts 98, 99 and 100;
- (b) Furnish, place, construct, operate, maintain and (when determined to be necessary by the Distribution Provider or the Commission) reconstruct, or replace all electric facilities within a public right-of-way or other right-of-way when the Distribution Provider elects to use such right-of-way in lieu of constructing facilities within the public right-of-way, at its own cost and expense, subject to the provisions of 16 NYCRR Parts 98, 99 and 100, which cost and expense shall include the amounts paid to governmental authorities for permits to do the work required and any additional amounts paid for the right(s) to make such elective use of other right-of-ways; and
- (c) Grant the appropriate footage allowance(s) under Rule 6.B.
