PSC No: 19 - Electricity   Leaf No. 30
Rochester Gas and Electric Corporation   Revision: 0
Initial Effective Date: June 1, 2003   Superseding Revision:

GENERAL INFORMATION

2. HOW TO OBTAIN SERVICE (Cont'd)

F.   LIMITATIONS OF SERVICE OFFER (Cont'd)

(2)   Minimum Insulation Standards for the Provision of Gas and Electric Service (Cont'd)

(d)   Certificate of Compliance
A Certificate of Compliance (see Rule 7.E. 1) shall be used in all areas of the state where no local authority exists, to assure compliance with the insulation requirements of the Energy Conservation Construction Code.

Each Certificate of Compliance shall be signed by the builder or contractor and the owner shall receive a copy of such certificate.

(e)   Compliance Procedures
In areas where there is no local building code authority, upon a complaint by a dwelling owner or tenant concerning noncompliance with the provisions of Rule 2.F.2.b, the Company will perform an on-site inspection to determine conformance with the standards concerning roofs, walls, foundation walls, floors, windows and doors. The result of this inspection will be provided in writing to the owner (and tenant when applicable) of the building.

Whenever the Company finds, as a result of such inspection or notification by the local building code authority, more than one outstanding complaint against any particular contractor wherein a dwelling constructed by such contractor or builder was found to be in noncompliance with the applicable standards, the Company shall refuse to provide gas and electric service to any construction site of that contractor or builder until all existing violations are corrected. The Company shall undertake random inspections of the future construction work of a past noncomplying contractor or builder until such time as the Company is satisfied that the applicable standards are being met.
