

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: June 1, 2003

Leaf No. 49
Revision: 0
Superseding Revision:

GENERAL INFORMATION

3. EXTENSION AND MAINTENANCE OF COMPANY FACILITIES TO SERVE CUSTOMER (Cont'd)

D. PLURALITY OF SERVICES (Cont'd)

(3) **Multiple Meters - Combined Billing**

The readings of two or more meters measuring the service to a single customer at a single location may be combined:

- (a) When a single meter cannot correctly measure the total service rendered.
- (b) When two or more service connections are necessary to provide service at the least expense to the Company.
- (c) When, in order to render proper and reliable service without undue interruptions, more than one service connection is necessary and a meter or meters are connected with each service connection

When the Company elects to supply the customer's premises through more than one service connection of a single type of current, the energy (kWh) and the noncoincident monthly maximum demands (kW) for each service connection will be added for billing, unless the expense for wiring and additional meter equipment necessary for the measurement of coincident demands is borne by the customer.
