

PSC No: 19 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: June 1, 2003

Leaf No. 177  
Revision: 0  
Superseding Revision:

**SERVICE CLASSIFICATION NO. 4 (Cont'd)**  
**RESIDENTIAL SERVICE - TIME-OF-USE RATE**

**SPECIAL PROVISIONS:**

1. Nonresidential Use  
In buildings primarily intended for residential purposes where not more than two rooms are used for business or for professional purposes, this classification will apply to both uses, provided the total connected load of such nonresidential use does not exceed 2,000 watts.
2. Multiple-family Dwelling  
In multiple-family dwellings, with not more than four family units, where each living unit is separately metered and billed on this classification, the incidental electricity used in common by all of the residents, such as hall, cellar or stair lighting, (but excluding water heating, space heating, air conditioning, laundry equipment and the like), may be served under this classification if metered with the use of one of the residential units.
3. Residential Photovoltaic Service
  - a. Service under this provision will be offered to customers who enter into and comply with the terms and conditions set forth in RG&E's Residential Photovoltaic Interconnection Agreement.
  - b. The Company will meter and bill all energy used and produced in accordance with the terms and conditions set forth in RG&E's Residential Photovoltaic Interconnection Agreement. The customer's photovoltaic generation that is not used within the customer's premises shall be measured monthly on a non-time-differentiated meter and allocated to each month's time period as follows:

The monthly hours of sunrise and sunset will be set at the time those events occur on the 15<sup>th</sup> of the billing month.

Customer photovoltaic generation will be assumed to commence 1 hour after sunrise and cease 1 hour prior to sunset.
