

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: October 1, 2004
Issued in compliance with Order in Cases 03-E-0765, 02-E-0198 and 03-G-0766 dated May 20, 2004

Leaf No. 160.32
Revision: 0
Superseding Revision:

GENERAL INFORMATION

12. COMMODITY PRICING OPTION ENROLLMENTS (Cont'd)

F. Changing Commodity Pricing Options (Cont'd):

A customer taking service at the Fixed Price Option with a Market Based Backout Credit (FPO with MBBC) is not eligible to switch to RG&E's Variable Price Commodity Option ("VPO") or to the ESCO Price Option (EPO) during any one-year commodity rate period.

(c) Customer on RG&E's Variable Price Commodity Option (VPO):

A customer taking service at RG&E's Variable Price Commodity Option (VPO), either by choice or by default, can switch to an ESCO under the ESCO Price Option (EPO).

A customer taking service at RG&E's VPO is not eligible to switch to RG&E's Fixed Price Commodity Option (FPO) or to the Fixed Price Option with a Market Based Backout Credit (FPO with MBBC) during any one-year commodity rate period.

(d) Customer on RG&E's Fixed Price Commodity Option (FPO):

A customer taking service at RG&E's Fixed Price Commodity Option can switch to the Fixed Price Option with a Market Based Backout Credit (FPO with MBBC). RG&E's Fixed Price Commodity Option ("FPO") may be adjusted each April 1, however, a customer on the FPO commodity pricing option prior to April 1, who elects retail access, will not receive an April 1 FPO rate adjustment.

A customer taking service at RG&E's FPO is not eligible to switch to RG&E's Variable Price Commodity Option (VPO) or to the ESCO Price Option (EPO) during any one-year commodity rate period.

2. Process for Changing to a Retail Access Commodity Pricing Option, January 1, 2005 and thereafter:

To effectuate the retail access enrollment, the customer's ESCO must contact RG&E to submit the customer's Retail Access enrollment information. A customer that participates in Retail Access may switch from one ESCO to another, but must maintain the same electric commodity pricing option (either ESCO Price Option (EPO) or the Fixed Price Option with a Market Based Backout Credit (FPO with MBBC)) during any one-year commodity rate period.

A Variable Price Option (VPO) customer for whom RG&E receives an ESCO's retail access enrollment request will be enrolled in the ESCO Price Option (EPO).

An RG&E Fixed Price Commodity Option (FPO) customer for whom RG&E receives a retail access enrollment request will be enrolled in the Fixed Price Option with a Market Based Backout Credit (FPO with MBBC).
