

PSC NO: 12 GAS

LEAF: 225

COMPANY: THE BROOKLYN UNION GAS COMPANY

REVISION: 2

INITIAL EFFECTIVE DATE: 10/29/04

SUPERSEDING REVISION: 1

STAMPS:

**SERVICE CLASSIFICATION No. 6M - Continued**

- e. The consumer agrees to permit access by the Company's employees or representatives, at all times, to the consumer's premises for the purposes of (I) inspection and testing all dual-fuel equipment and associated control devices and (ii) the measurement and verification of dual-fuel consumption.

The consumer agrees that the Company may measure fuel consumption in any reasonable manner, including but not limited to automatic recording devices ("telemetering").

- f. If operation or supply conditions warrant, the Company may designate the "outside temperature" as the temperature measured at The Central Park Observatory for the purpose of requiring the customer to switch to an alternate fuel source.

- g. If the Company declares an emergency, the consumer agrees to immediately manually switch from the use of gas to the alternate fuel upon oral or written request of the Company at any time and the consumer shall not switch back to gas until notified by an authorized representative of the Company.

- h. In conjunction with installed telemetering equipment, the Company reserves the right to install and operate such remote control switching devices as may be necessary to allow for the immediate switchover between gas service and alternate fuel usage as priced for under this Service Classification. This provision shall not affect or modify any consumers' rights or obligations, as contained in this Schedule for Gas Service.

**i. Customer Failure**

During each winter season, a customer that does not interrupt gas service when required to do so, for any two occurrences (consecutive or non-consecutive), will be notified that they have violated the service requirements of the interruptible tariff. A winter season is defined as October through March. Effective with the next billing period, customers with two violations will be transferred to the equivalent firm service classification unless the Company has been notified in writing that the customer has chosen to terminate gas service. Customers transferred from interruptible to firm service are required to remain on firm service for the remainder of that winter season through the end of the next winter season. After that time a customer becomes eligible to re-apply for interruptible service.
