SECTION 1 - DEFINITIONS (Cont'd)

Station - The network control signaling unit and any other equipment provided at the Customer's premises which enables the Customer to establish communications connection and to effect communications through such connections.

Subscriber - The person, firm, partnership, corporation, or other entity who orders telecommunications service from DSCI Corporation. Service may be ordered by, or on behalf of, those who own, lease or otherwise manage the pay telephone, PBX, or other switch vehicle from which an end User places a call utilizing the services of the Company.

Switched Access Origination/Termination - Where access between the Customer and the interexchange carrier is provided on local exchange company Feature Group circuits and the connection to the Customer is a LED-provided business or residential access line. The cost of switched Feature Group access is billed to the interexchange carrier.

Terminal Equipment - Any telecommunication equipment other than the transmission or receiving equipment installed at a Company location.

Usage Charges - Charges for minutes or messages traversing over local exchange facilities.

User or End User - A Customer, Joint User, or any other person authorized by a Customer to use service provided under this tariff.
