SPECIAL PROVISIONS (Cont'd)

6.2 Customers will be permitted to select their on-peak period as follows:

- 8 AM to 8 PM on weekdays only or
- 9 AM to 9 PM on weekdays only or
- 10 AM to 10 PM on weekdays only.

After the initial selection of the on-peak period, customers will be permitted to change their on-peak time period selection once at no charge. Any subsequent requests for on-peak time period changes will result in a \$25.00 charge per visit by Company personnel.

6.3 Residential Small Solar Electric Generation - Residential customers may install photovoltaic generators with rated capacity of not more than 10 kW to supply their electric load and/or sell electric energy to the Company as set forth in General Information Section 3.C. Interconnection costs charged by Central Hudson for a dedicated transformer should it be determined to be necessary, shall not exceed \$350. The total residential photovoltaic generator load on Central Hudson's system may not exceed 0.8 MW. Wiring and switches of these facilities may be arranged in parallel so as to permit the flow of current from the customer to the Company and vice versa. The customer's net output will be measured by a non-time differentiated watthour meter and the customer shall be responsible for the costs of any new meter box and socket, to the extent required.

Customers with Residential Small Solar Electric Generators who satisfy all installation and operation requirements will be allowed to combine their purchases from and sales to the Company in a billing period.
