

PSC NO: 119 ELECTRICITY
NEW YORK STATE ELECTRIC & GAS CORPORATION
Initial Effective Date: 12/31/04

Leaf: 107
Revision: 2
Superseding Revision: 1

GENERAL INFORMATION

9. Distributed Generation Interconnection Requirements (Cont'd.)

C. DG Standardized Contract:

- (1) Customer is required to enter into a signed Contract with NYSEG substantially in the form of, New York State Standardized Contract for Interconnection of New Distributed Generation Units with Capacity of 2 MW or Less Connected in Parallel with Utility Distribution Systems, which is included within Addendum-SIR of this Schedule.
- (2) Termination of the Contract by either party will be in accordance with the Contract section 1.2 Termination.

D. DG Interconnection Requirements:

- (1) DG Interconnection Requirements will be in accordance with the relevant sections of NYSEG's Requirements for Independent Power Producers of Electricity pertaining to the NYSIRs.

E. DG Customer Charges:

- (1) For units over 15 kVA, a \$350 application fee will be required to be paid with the completed application.
- (2) For all units 2 MW and less, excluding residential photovoltaic systems rated 10 kW or less and Farm Waste Generators, the Customer will be responsible for an advance payment for NYSEG's estimated costs associated with engineering review, system modifications, metering, and on-site verification.
- (3) For units of 15 kVA and less, no application fee is required, and there will be no charge for the engineering reviews.
- (4) The Application fee, if required, and any advance payment will be applied against NYSEG's total cost of interconnection which will be reconciled after final acceptance of the unit. The Customer will receive either a bill for any balance due or a reimbursement for overpayment as determined by the Company's reconciliation.

Issued in compliance with Order in Case 02-E-1282 dated 11/17/04.

Issued by: James A. Lahtinen, Vice President – Rates & Regulatory Economics, Binghamton, NY
