# **SERVICE CLASSIFICATION NO. 2 (Cont'd.)**

### MINIMUM CHARGE:

The monthly minimum charge for service is one-twelfth of the Annual Maintenance Charge.

### SYSTEM BENEFITS CHARGE:

A System Benefits Charge (as explained in this Schedule, General Information Section 16) of \$.0014 per kWh will be added to each Total Energy Charge on the customers' bills in this Service Classification. This charge will be effective with usage beginning January 1, 2005.

### **INCREASE IN RATES AND CHARGES:**

The rates and charges under this Service Classification, including minimum charges, will be increased by a surcharge pursuant to Section 3 of P.S.C. 121 - Electricity to reflect the tax rates applicable within the municipality where the customer takes service.

### ALLOWANCE FOR LAMP OUTAGES:

The Company will use reasonable diligence to provide a continuous, regular and uninterrupted supply of service and the customer will use reasonable diligence to protect the lighting system. If for any reason the lamp becomes inoperable, the Company will make every effort to complete the necessary repair within three business days after notice of such outage has been received by the Company from a customer. In lieu of determination of the actual lamp-hour outages, resulting from a failure of any light to burn for any reason, a monthly credit is automatically included in the energy charges of the monthly bill, in that the charge per kilowatt-hour quoted in the tariff has been reduced by 0.15%.

## TERMS OF PAYMENT:

All bills are rendered at the above "unit prices" and that amount is due on bills paid on or before the past due date indicated on the bill. A late payment charge at the rate of one and one-half percent (1 1/2%) per month will be billed on all amounts not paid by that date. (Further details in Section 14 of the General Information section of this Schedule.)
