

PSC No: 19 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: January 1, 2005  
Issued in compliance with Order in Cases 03-E-0765, 02-E-0198 and 03-G-0766 dated May 20, 2004

Leaf No. 160.29  
Revision: 1  
Superseding Revision: 0

## GENERAL INFORMATION

### 12. ELECTRICITY SUPPLY PRICING OPTION ENROLLMENTS (Cont'd)

#### C. Customer Eligibility Criteria (Cont'd):

Customers who select the FPO or the EOSA for a new premise or meter, for service initiated on or after April 1 of the one-year commodity rate period, will receive the April 1 FPO price adjustment for that meter or premise for the remainder of that one-year commodity rate period.

#### 2. Customers Ineligible to Select A Electricity Supply Pricing Option:

A customer taking service under a special contract, or receiving an incentive or discounted rate which by its terms would preclude eligibility, may not select an electricity supply pricing option. A customer may select an electricity supply pricing option upon expiration of their special contract, incentive or discounted rate.

#### 3. Multiple Premises or Multiple Metered Accounts

A customer's enrollment option selection will be used for all premises and meters on the account number for which the enrollment was received. A customer may select a different option for each premise, however, an additional account must be established for each of the different options selected.

#### D. Enrollment for Pricing Options to be Effective January 1 of each Commodity Rate Period:

The first Enrollment Period begins October 1, 2004 and ends on December 31, 2004. A customer's electricity supply pricing option selection made during this period will become effective on January 1, 2005 and will continue through December 31, 2005, unless the customer elects a rate change, pursuant to the rules set forth below in Section 12.F. Subsequent Enrollment Periods begin on October 1 of each year. Each Enrollment Period is in effect from October 1 through December 31. The selected electricity supply pricing option becomes effective on each January 1 immediately following the applicable Enrollment Period.

During each Enrollment Period, any eligible customer may communicate an electricity supply pricing option selection using one of the following methods: (1) telephoning RG&E's Interactive Voice Response (IVR), (2) accessing RG&E's Web site, [www.rge.com](http://www.rge.com), (3) returning the enrollment form via US mail, (4) contacting RG&E's Customer Relations Center, (5) contacting an RG&E marketing representative, (6) visiting a local RG&E office, or (7) contacting an ESCO. Rate enrollment procedures for a customer currently participating in Retail Access are different than the procedures for a customer who is not participating in Retail Access.

#### 1. Non-Retail Access Choices:

The FPO and the VPO are the two Non-Retail Access choices available to all customers, except as noted above in Section 12.C. A customer currently enrolled in Retail Access who elects a Non-Retail Access rate must follow the enrollment procedures set forth in this Schedule at Section 12.D.2.C below.
