### SERVICE CLASSIFICATION NO. 8

#### RESIDENTIAL DISTRIBUTED GENERATION FIRM GAS SALES SERVICE

#### APPLICABLE TO THE USE OF SERVICE FOR:

Firm Sales Service to any residential customer described below who has or installs a gas-fueled distributed generation (DG) facility that represents generating units designed to provide electricity to the customer and that maintains a load factor of 50% or more. (Load factor is defined herein as annual gas use divided by winter peak day gas usage multiplied by 365 days). The annual gas and peak day volumes used in the load factor calculation will be based on the customer's historical usage combined with the estimated usage of the prospective DG unit. For new applicants for whom the company does not have historical data, annual gas and peak day volumes will be estimated based on the prospective DG unit and other gas appliances in service. Such distributed generation facilities may include, but not be limited to, reciprocating engines, steam turbines, gas turbines and emerging gas technologies such as fuel cells and microturbines. Service under this service classification is available throughout the Company's service territory to which this schedule applies, providing the Company has facilities available and adequate for the load.

Residential service is applicable to individual private dwellings, including two-family dwellings where the customer is a resident, flats or apartments. It is applicable to all gas utilized exclusively in connection with religious purposes by any corporation, association or school organized and conducted in good faith for religious purposes; or any post or hall owned or leased by a not-for-profit corporation that is a veterans' organization. Residential service is also applicable to use exclusively in connection with a community residence for the mentally disabled, as defined in Subdivision 28, 28-a, or 28-b of Section 1.03 of the Mental Hygiene Law, provided that such residence is operated by a not-for-profit corporation and, if supervisory staff is on site twenty-four (24) hours a day, that the residence provides living accommodations for fourteen (14) or fewer residents.

#### CHARACTER OF SERVICE:

Continuous - natural gas or a mixture of natural gas and other gas with a Btu content of not less than 1,000 Btu per cubic foot, supplied at limits prescribed by the Public Service Commission.

#### RATE (per month):

The Company's charges are:

(1) Gas Delivery Charges:

First 3 therms or less (All months)	\$14.74
Over 3 therms, per therm	\$.0839

Minimum Monthly Charge:	\$14.74
-------------------------	---------

(2) Gas Supply Charge (GSC):

The customer shall be subject to a GSC, as explained in Rule 4H. The GSC is provided in the GSC Statement, as filed with the Public Service Commission each month.
