iv. Marketer Initiated Disconnect of Residential Customers (Cont'd)

- e. A Deferred Payment Agreement will be offered by the company and the Marketer, either jointly or separately at the company's and the Marketer's discretion, before service is terminated.
- f. The Marketer may only request the company to suspend delivery service for the commodity for which the residential customer is in arrears to the Marketer. The company must be providing service to the customer at the time the Marketer requests suspension.
- g. The company will not be required to verify provisions of agreements between Marketers and their customers and may rely on Marketer statements relating to provisions in agreements between Marketers and their customers.
- h. When the company disconnects gas service to a customer for non-payment of commodity charges initiated by a Marketer a disconnect charge will be assessed. The charge applicable to all Marketers will be \$77.00. When a residential customer's delivery service is contemporaneously shut off as a suspension for the Marketer and as a disconnection for the company, because the customer is in arrears to both, the disconnect fee charge the Marketer will be reduced by 50%.
- i. A Marketer initiated suspension of delivery service must end upon payment of the lesser of the amount the customer would have paid to the company for delivery and commodity service or the amount due the Marketer plus the amount due the company.
- j. At the request of the Marketer, the company will calculate the amount the customer would have been billed by the company for commodity and delivery service if the company had been providing both services. The Marketer will provide the company with the specific billing period dates for which the calculation is to be performed. The fee for each calculation request, per account, will be \$2.00.
