COMPANY: THE BROOKLYN UNION GAS COMPANY

REVISION: 3

INITIAL EFFECTIVE DATE: 10/29/04

SUPERSEDING REVISION: 2

STAMPS: Issued in compliance with order in Case 04-G-0945 dated October 21, 2004

SERVICE CLASSIFICATION No. 6G - Continued

- h. In conjunction with installed telemetering equipment, the Company reserves the right to install and operate such remote control switching devices as may be necessary to allow for the immediate switchover between gas service and alternate fuel usage as priced for under this Service Classification. This provision shall not affect or modify any consumers' rights or obligations, as contained in this Schedule for Gas Service.

i. **Customer Failure**

During each winter season, a customer that does not interrupt gas service when required to do so, for any two occurrences (consecutive or non-consecutive), will be notified that they have violated the service requirements of the interruptible tariff. A winter season is defined as October through March. Effective with the next billing period, customers with two violations will be transferred to the equivalent firm service classification unless the Company has been notified in writing that the customer has chosen to terminate gas service. Customers transferred from interruptible to firm service are required to remain on firm service for the remainder of that winter season through the end of the next winter season. After that time a customer becomes eligible to re-apply for interruptible service.

A "warning letter" will be sent to customers after their first violation of the winter season. Failure to comply during the first system-wide test of the season, or any follow-up tests, is considered a violation.

There is an amnesty clause available to customers that experience an equipment failure. Should a customer's equipment fail to switch, it must notify the Company within one hour of the failure, and provide proof within two days that the equipment has been repaired and is operable. If a customer can demonstrate that it was unable to obtain and install the necessary equipment within two days, the customer shall have five more days to remedy the situation. The customer shall also provide proof that it has installed the necessary equipment. If a customer meets this criteria, the violation will be waived. If the customer cannot obtain and/or install the necessary equipment within seven days, the equipment failure will be considered a violation. However, there will be only one waiver of a violation allowed per winter season. Such waiver does not exempt the customer from having to pay any related overrun or unauthorized use charges.
