

PSC NO. 3 GAS
St. Lawrence Gas Company, Inc.
Initial Effective Date: 06/04/2004

Leaf: 295
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 9

INTERRUPTIBLE TRANSPORTATION SERVICE
FOR GENERATORS OF ELECTRICITY

Applicable to Use of Service for:

Transportation of customer-owned gas to dual fueled facilities where such gas will be used in the production of electricity in generators having an electrical output capacity greater than fifty (50) megawatts (MW). Service under this service classification shall be interruptible for up to 720 hours per year. If company is not able to reliably provide at least 335 days of firm transportation service, service may be interrupted more than 720 hours.

(Note: Gas not used directly for the production of electricity does not qualify for transportation pursuant to this service classification but shall be transported pursuant to Service Classification No. 2.)

By order dated May 8, 1992 in Case 91-M-0927, summaries of negotiated contract rates and pertinent information will be appended to the tariff.

Character of Service:

Transportation of customer-owned, pipeline quality, natural gas on an interruptible basis from the Point of Receipt to electrical generation facilities at customer's Point of Delivery. Company will control the dispatch of such gas, and dispatch will be provided as requested by customer, if company can do so without adversely affecting service to customers with a higher service priority. For purposes of this service classification, service shall be Maximum Day Transportation Volume as defined in General Information XI.I.

Company has no obligation to secure gas supplies on behalf of customer or make gas supplies available to customer, and customer will be permitted to draw upon company's system supply only to the extent that service to customers under other Service Classifications having a higher priority of service is not jeopardized or impaired.

Natural gas with not less than 950 Btu per cubic foot, at pressures to be agreed upon, but not less than four inches water column, shall be received and supplied hereunder, and shall be subject to such curtailment or interruptions as company, in its sole judgment, shall deem necessary.
