Economic Development Incentive: (Cont'd)

- who applies for service hereunder on not less than 60 days notice, and furnishes proof that it is eligible as an Economic Development Zone customer;
- shall be eligible to take service hereunder in accordance with the provisions of Service Classification No. 4, and to pay a reduced amount for such service as described below. Service supplied hereunder shall not be used to supply any of customer's existing facilities. Service must commence within 90 days of the agreed upon start-up date of the new facility.

Customer will be billed at a rate of not more than the rate charged to Service Classification No. 4, recalculated to remove the Commodity Charge of the Service Classification No. 3 rate, for all use in excess of a base amount established for each monthly billing period.

For an existing customer, the base amount will be based on an average of the respective month in the two previous years adjusted for abnormal conditions, or an estimate, determined by company. For a new customer, the base amount will be determined by company using projected volumes.

The incentive reduction per therm will be applied under this schedule to that customer's bill for the term of the zone or, if the designation expires, for a period of ten years, as long as the customer remains certified.
