

PSC NO. 3 GAS  
St. Lawrence Gas Company, Inc.  
Initial Effective Date: 06/04/2004

Leaf: 308  
Revision: 0  
Superseding Revision:

SERVICE CLASSIFICATION NO. 10

DISTRIBUTED GENERATION – NON-RESIDENTIAL (Cont'd)

Increases in Rates and Charges:

The rates and charges are subject to the tax factor as explained in 2. XIV.

In the event that the provision for transportation service to customer requires company to incur related charges, an amount reflecting the costs incurred by company will be added to the rate.

Terms of Payment:

Net cash. Interest will be charged at the rate of 0.06% per day on all amounts due and owing on accounts within this Service Classification, except to State agencies, starting twenty days after the bill is rendered. Service to State agencies will be rendered in accordance with the requirements of Article XI-A of the State Finance Law (Chapter 153 of the Laws of 1984, effective July 1, 1984).

Term:

If the customer's annual load factor, based on winter peak demand, is not at least 50 percent, the customer should be placed on the otherwise applicable rate for one year, unless there are mitigating circumstances which would argue for leaving the customer on the distributed generation rate or returning the customer to the distributed generation rate in less than one year, at the company's discretion. The calculation of the customer's load factor will begin on the date the customer commences commercial operations and will be calculated annually, using twelve months of data, on the anniversary of the commercial operation of the customers distributed generation unit.

Special Provisions:

1. Service under this Service Classification is subject to company's rules and regulations set forth in General Information.
2. In the event that the provision of transportation service to customer requires company to incur related charges, an amount reflecting the costs incurred by company will be added to the rate.
3. Customers operating under this service classification shall pay for any required system reinforcements.
4. Customers using 5 Megawatts or more will be required to have automated meter recording equipment installed by the company at the customer's expense. In addition, the customer will be required to have the electric service and a dedicated phone line installed for the recording equipment.
