

PSC NO. 3 GAS
St. Lawrence Gas Company, Inc.
Initial Effective Date: 06/04/2004

Leaf: 111
Revision: 0
Superseding Revision:

GENERAL INFORMATION

2. General Rules, Regulations, Terms and Conditions: (Cont'd)

VIII. Resale Prohibited:

Gas service will not be supplied under any service classification of this rate schedule for resale, remetering, submetering, redistribution or other redistribution except that any customer may furnish gas for the use of his tenants, or for the use of other occupants of his premises provided that the customer shall not resell, make a specific charge for, or remeter or submeter (except as provided below) or measure any of the gas so redistributed or furnished. Landlords of industrial and commercial properties, which do not have residential tenants, may file a petition and application to the New York State Public Service Commission requesting permission to submeter gas usage to their tenants. Such petition and application must address the following four areas of major concern regarding the request to submeter (1) safety (2) rate impact for the ultimate consumer (3) non-rate consumer protection issues, and (4) service provider and utility matters. The petition and application must also provide that the conditions proffered will be reiterated in leases with the submetered tenants. Copies of such petition and application must be served on the company and the petitioner's tenants.

IX. Gas Curtailment Procedures:

- A. If the Company, in its judgment, finds that it is unable to satisfy the full requirements of its customers and finds it necessary to curtail distribution service, the company may curtail service to a customer or give oral or written notice of curtailment. Unless otherwise directed by company for operational reasons, customer may comply with any order to curtail or discontinue service by making an equivalent volumetric reduction or discontinuance of service at any location owned, operated or controlled by customer in company's service territory. If notice of curtailment is given, a customer must curtail its use of service to a base level pursuant to the notice. If a customer has been directed to curtail consumption, orally or otherwise, and refuses to comply with the directed reductions, the customer shall be subject to an additional charge of \$25.00 per Mcf of unauthorized usage. The base level to be used for a long term curtailment for residential and commercial customers shall be calculated by averaging the weather normalized usage for the previous three years. For industrial customers who contract for their supply on a daily basis, the base level is the daily contract volume.
- B. Curtailments and notices of curtailment of services resulting from a gas supply deficiency will normally be made in the following order of priority to the extent permitted by operating feasibility.
 1. Interruptible service requirements.
 2. Firm requirements to customers whose facilities are capable of using an alternate fuel or energy source to supply the energy requirements of the premises otherwise supplied by gas.
