SERVICE CLASSIFICATION NO. 1

RESIDENTIAL SERVICE

Applicable to Use of Service For:

Any use of gas for residential purposes in a single-family or a two-family dwelling; in separately metered apartments of a multiple dwelling; in two-family houses for use in appliances supplying water heating or space heating where such services are rendered in common to both families; for space heating or space heating and water heating in rooming houses and multi-family buildings where not more than 25 % of the cubical content is occupied by nonresidential activities and such services are rendered in common to all families. Also applicable to use of gas by any corporation or association organized and conducted in good faith for religious purposes, and to any post or hall owned or leased by a not-for-profit organization that is a veterans' organization.

Applicable also to use exclusively in connection with a community residence as defined in subdivision twenty-eight, twenty-eight-a or twenty-eight-b of section 1.03 of the Mental Hygiene Law, provided that such residence is operated by a not-for-profit corporation and staff is on site on a twenty-four hour per day basis, and that the residence provides living accommodations for fourteen or fewer residents.

Customers qualifying for service under this Service Classification may use, or may aggregate their individual loads for purposes of utilizing Reserved Unbundled Transportation Service available under this Service Classification.

Human Needs customers utilizing transportation services must contract for Backstop service unless they have an alternative space heating system and a supply of alternative energy for such system. Facilities providing for Human Needs are those requiring gas for space heating for overnight accommodation of human beings, excluding hotels and motels.

Character of Service:

Natural gas with not less than 950 Btu per cubic foot, at approximate pressure from 6 to 7 inches water column.
Continuous service.

Services Available:

The following services are available under this Service Classification:

Sales Service: For the continuous supply of natural gas by the company including associated Distribution Delivery, Gas Interconnection, Gas Transportation, Gas Supply, and Load Balancing services necessary to ensure delivery of natural gas service in accordance with customer's needs.
