

PSC NO. 3 GAS  
St. Lawrence Gas Company, Inc.  
Initial Effective Date: 06/04/2004

Leaf: 40  
Revision: 0  
Superseding Revision:

## GENERAL INFORMATION

### 2. General Rules, Regulations, Terms and Conditions: (Cont'd)

#### II. How Service May Be Obtained: (Cont'd)

##### L. Service Connections:

1. The company will install at its own expense up to 100 feet of service line (service line measured from the centerline of the public right-of-way, or from the main if it is closer to the customer and development will be limited to one side of the right-of-way for at least 10 years), service connections and appurtenant facilities, but not less than the length of service line necessary to reach the edge of the public right-of-way. The service installation costs shall include material, installation, the amounts legally imposed by governmental authorities for obtaining work permits and for repairing or replacing disturbed pavement.
2. Additional footage of gas service piping will be installed at the expense of the company if, in the opinion of the company, the prospective revenue is sufficient to justify such excess piping.
3. In the event service piping is required in excess of the above-mentioned service piping installed at the expense of the company, such excess piping will be paid for by the customer at the company's cost thereof. When service piping is installed under winter conditions (as determined by the company), the customer shall be charged all costs in excess of what it would have cost under normal weather conditions.
