

NY PSC Tariff No. 7 – TELEPHONE  
PAETEC Communications, Inc.  
Initial Effective Date: 02/22/2004

Section : 2 Leaf: 24  
Revision: 0

---

## SECTION 2 - RULES AND REGULATIONS (Cont'd)

### 2.11 OBLIGATIONS OF THE CUSTOMER (Cont'd)

#### 2.11.9 Measurement of Access Minutes

For terminating calls, the measurement of access minutes begins when the terminating entry switch receives answer supervision from the terminating end user's end office, indicating the terminating end user has answered.

The measurement of terminating call usage ends when the terminating entry switch receives disconnect supervision from either the terminating end user's office, indicating the terminating end user has disconnected, or the customer's point of termination, whichever is recognized first by the entry switch.

#### 2.11.10 Network Congestion

When a Customer offers service for which a substantial call volume is expected during a short period of time, the Customer must notify the Company at least 48 hours in advance of each peak period. Notification should include the nature, time, duration, and frequency of the event, an estimated call volume, and the telephone number(s) to be used. On the basis of the information provided, the Company may invoke network management controls to reduce the probability of excessive network congestion. The Company will work cooperatively with the Customer to determine the appropriate level of such controls.

#### 2.11.11 Purchase of Service

Should a Customer use the Company's access service, regardless of whether the Customer has affirmatively requested service or has an executed service order, the Customer will be subject to the obligations, rates, and charges as set forth in this Tariff.
